

INLINE STRAINER

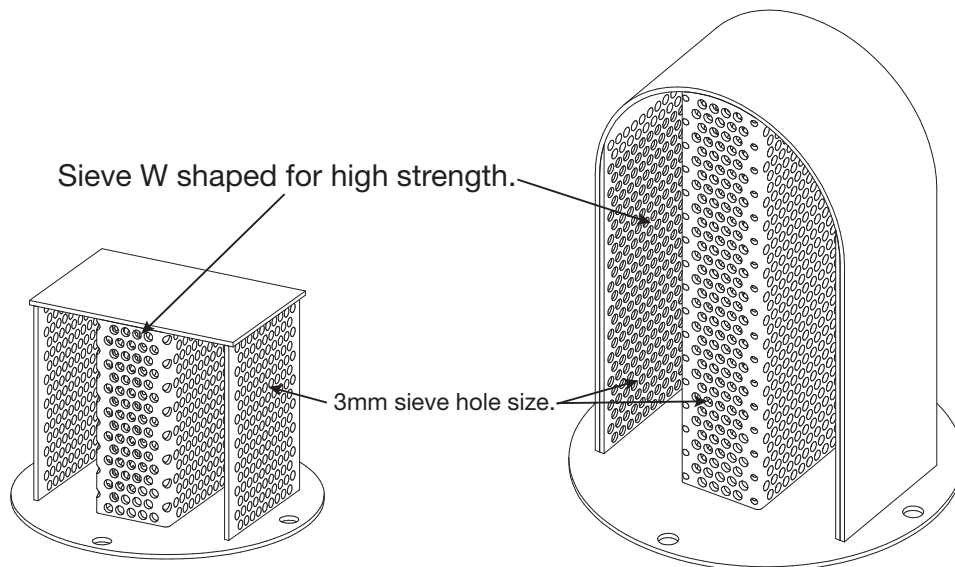

PRECISION METERS INLINE STRAINER

- For use with all mechanical Woltmann type water meters.
- Heavy-duty 304 stainless-steel strainer sieve element.
- W shaped element provides the maximum sieve area and strenght.
- Low pressure drop.
- Standard ISO meter body lengths.
- Top cleaning strainer element removable without disturbing the pipework.
- Maximum working pressure 1600 kPa.
- Flanged Table 16.
- Epoxy coated cast iron strainer body
- Standard Infinity Eco meter body. A pre-calibrated infinity Eco internal mechanism can be fitted in place of the strainer element for use as a temporary check meter.
- Stainless steel top cover bolts.
